

WOLVERINE REACTIVE DOG POLICY

Wolverine Dog Training Club was formed with the mission of training dogs to be good home companions and enable them to demonstrate their skills in obedience and a variety of other dog sports. We are not experts in animal behavior, specifically high reactivity toward other dogs or humans. For the benefit of reactive dogs, their owners, and the other students enrolled in classes, we may refuse to accept reactive dogs in certain class situations. In these cases owners will be advised to seek expert advice. Listed below are three possible trainers who may be of assistance.
